HORRIBLE HORRIFIC NIGHTMARE OF A GAME. IF you have the Mixed Reality Headset don't get it, there are NO PLANETS. Let me say this again, THERE ARE NO PLANETS!!!!!!!!!!

I restarted the game three times messed around with the graphics settings and still NO PLANETS. The announcer is telling me you are now one mile from Mars, or a few kilometers from Jupiter, REALLY?????? I DONT SEE♥♥♥♥♥!!!! WORST GAME EVER.. the gameplay is weird

the graphic is cool

but its really boring. Second part of a trilogy takes one hour more to complete the story line, but it's still very short and miserable.

5V10. No Man's Sky is an atmospheric triumph. The rocky launch to this game has somewhat stigmatized it as a game that didn't live up to its promise and perhaps that was true at launch; it is certainly not the case anymore.

This is my second time purchasing this game. I've clocked over 200 hours on the ps4 and I don't regret a single moment. However, you should know what you're buying. Like I said before, the strength of this game is it's atmosphere (no pun intended) as well as it's tone, and it's vast universe chock full of adventure; but a good portion of that adventure will be up to you. No Man's Sky is slow at times, it requires patience and a want to slowly grow more prepared for whats ahead. You'll be doing alot of mining and scavenging. This game is just as much a survival game as it is a exploration game, you'll be finding and crafting components to make weapons, visors, scanners, parts of your base and more. You'll be repairing your shields, weapons and vehicles and meeting plenty of aliens and robots that may lack in variety after a while, but that I believe is it's only real notable flaw at this point.

The TLDR of this review is that NMS is a FAR better game than what you may have heard if you listened to all the controversies at launch, and lets face it... you did. The team has built a wonderful game and I believe you'll surely enjoy it if you're a fan of space, survival games, exploring and mining things.

. i have alot of fun plaing this game, just cause it reminds me of all the nes sports games, my only complaint is the price might be a little steep for a game that doesnt have like a season mode and only quick play matches.. This series is, along with OpFor, proof that Gearbox isn't the worst developer on the planet Earth.

They may be pathological liars, but they ♥♥♥♥ up when a production of theirs is outsourced, half♥♥♥♥♥♥♥♥♥♥ from the get go or largely NOT theirs (the last two apply to Duke Forever, the first to Aliens: Colonial Marines). They don't ♥♥♥♥ up when they're trying.

While I believe certain games like Borderlands can result in a loss of interest fairly quickly, it's still not a 'bad' game - just average.

The BIA series is about twenty times better than that. It's been a while since I've played through them all thoroughly, including Hell's Highway, during a completely different era and time period, but my memories of the games are good ones.. I'm a simple man. I see access to Koenigsegg instantly, I buy.

10V10 would dominate online players with the Agera R again!. Ta gra jest jak No Man's Sky, tyle \u017ce ta\u0144sza i lepsza. 10V10. This game equals\u2665\u2665\u2665\u2665\u2665. Can almost smell it!

Really fun! A nice battle royale game with an easy learning curve and Chinese charm.. Fun and great game to play with friends for hours.. eh pretty good would recomend it for just casuly lisghting to music and i know i cant spell also game good time waster. You want big booms? You want DEMON TRUCK.

You want a demon? YOU WANT DEMON TRUCK.

How about trucks, you want those? Yeah baby- YOU WANT DEMONTRUCKRIGHTNOW.

Look, I am just sayin' man, trucks are cool, demons are cool, its like \$5 and supports a great dev. What have you got to lose?

In all seriousness, what you are getting here is a short arcadey bit of fun. You may play it a lot, you may play it a little. Each run is generally not very long but if you just feel like crashing and bashing for a bit there are many worse ways you could use your time. It takes a little roguelike with a little bullet hell and makes it into a 3 min activity.. I'm really amazed by the state of the game. Now i can say that it gives me RE and Silent Hill vibes! I like the environment and the enemies are pretty creepy tbh. Keep up the good job guys!. A very simple yet cute Christmas themed tower defense game. Great for beginners in this genre and easy enough for children to enjoy. No flaws in gameplay that I can see and even though it's short for .99 cents it's worth it at that price. You'll need to do more than one play thru to get all the achievements it took 1.4 hours total to unlock them all for me.. Great game! The game was originally on xbox 360 and it was ported very well for people coming from there.

-a variety of levels

-PvP and PvE

-Defend the flag mode

-only boss mode

-Many, many guns

-and many, many pieces of armor that can make run as fast as sonic or steal as much life as dracula

-I can run like sonic

-Rings with unique abilities for every play style

And overall just a great community. All of this for just 2 dollars? This is a MUST BUY for any new comers or even veterans coming from the xbox. It was great then, and it's great now :) 9V10 would run like sonic again.. fix your fragging EU servers u cants!
