Fabio Zingg is the founder of FilterGrade Photography, which is a company dedicated to create customised image and lens filters. These products are designed for photographers who want to get creative with their photography and have a more artistic approach. More info on the company. Filters are processed and perfected with the help of computer software, so photographers have a lot of flexibility when designing their own filters and compositions. I decided to create these Photoshop presets as a start. I have been working on this project for a few months now. I spent a lot of time in the past, trying to come up with the perfect combination of the perfect filter and a perfect position to use it in a specific photo. These presets have been made with several filters in mind and I have worked extensively to make them as accurate as possible. This is why I have chosen to name them with their main 82157476af
